COWLEY VISITED

BY SERIOUS FIRE

Cowley experienced the worst disaster in its history when, at 4 a.m. Tuesday, February 19th, fire which started in the kitchen of the Cowley hotel, gained headway and destroyed that old landmark, together with several adjoining buildings.

One of the guests of the hotel was the first to awaken, when his room filled with smoke. The alarm was given and all inmates were aroused. Only a few of them saved a bare outfit of wearing apparel.

The strong west wind made it impossible to save the structure, though the volunteer firemen did all possible. The hotel was soon a mass of flames, which soon communicated to the adjoining Masonic hall building, the lower floor of which was occupied as a restaurant. This building soon was ablaze and the next to go was the garage of the Cowley Motors. From the garage, fifteen cars and all available stock and tools were safely removed and the fire was held there, next to the Christie block, which was saved.

The old garage building on the east side of the street from the hotel was on fire many times, but hard fighting saved it and prevented spread eastwards.

When the hotel fire was at its height, the C.P.R. station and freight sheds were endangered.

Peter McEwen, lying ill and unconscious in his home adjoining the old garage, was removed to safety.

The losses are given approximately as follows: Cowley hotel and laundry barn \$10,000, partially covered by insurance; Masonic hall and contents \$5,000, fully covered; Cowley Motors \$8,000, not insured.

The Main Street today has a desolate appearance, both restaurant and hotel having been lost. There is as yet no place for the visitor to eat or sleep.

The annual meeting of the ratepayers of the Municipal District of Livingstone No. 70 was held in Cowley on Saturday afternoon last. Attendance was limited, owing to storm, but the discussion was quite brisk. Nominations were made as follows: Division One — F. G. Bustard and Thomas Jones; Division Two—James Bennett and A. J. Snyder; Division Six — Louis Louchart and A. Hammond, the first named in each case being the retiring councillor. Elections will be held on Saturday, February 23rd.

The parents of the children of the Cowley district were invited to the school on the afternoon of February the 14th, when a valentine party was staged. An attractive programme, prepared by the Literary Society, was rendered in pleasing style in part as follows: recitation, "Baby in Molasses Jar," Billie Ritson; recitation, "Jim's Old Clothes," Billie Ritson; play, "Typical Flapper," Clare and Jack Bundy and Marion Morrison; play, "Waiting," Ketha Tustian and Verdon Leigh; recitation, "Love's Quarrel," Mrs. Edwards; recitation, "Me," Sylvia Murphy; recitation, "Taking Pictures," Verdon Leigh; recitation, "Little Brown House," Margaret Gilmore; negro selection by Mrs. Bundy. Following a peanut scramble, luncheon was served by the pupils of the senior room. It was good to be there.

DR. H. M. TORY HONORED

Dr. H. M. Tory, who occupied the position of president of the University of Alberta from its organization until last year, has recently been appointed president of the League of Nations Society of Canada, succeeding Sir George Foster.

Rev. Father Birch, of Fernie, is seriously ill in St. Michael's hospital at Montreal.

COMIC HOCKEY AT LOCAL

ARENA TOMORROW NIGHT

A real hockey fan fest is in store for those who can attend the arena tomorrow night. Two games are to be staged, the first between "Youth" and "Beauty," representing the boys and their dads, commencing at 6.30 sharp, to be followed by a demonstration of "How hockey should be played," by the "Fats" and "Leans" of Blaimore.

In the opening game you will find such characters as Allan Hamilton, Arthur Ferguson, Bill McVey, Jack McAndrew, Marshall Hamilton, Don MacPherson, Jack and Bill Patterson, Sam Bannan, Bill Chappell, Jack McPhail, Jack Smith, Alex. Moreney and Bob Gray, all fully qualified hopped individuals, who are to face the following lads: Alex. Rae, Albert Chappell, Tomany Hamilton, Cecil Johnson, Frank Morgan, Leonard Davis, Alex. McDowell, Ian Walker, Walker Perry, Sandy Ferguson, Arthur Williams and Jack Scott.

The officials in attendance will include: Walter Scott, coach; Rev. J. W. Smith, Mentor; Arthur Kelly, referee; J. R. McLeod, timekeeper; W. J. Bartlett, reporter; Harold Pinkney, cheer leader; W. L. Evans, liquid carrier; Milt. Congdon, Dave Martin, John Angus McDonald, Dave Kemp, Alf. Womerley and Walter North, stretcher bearers; Moses Johnson, custodian of liniment and other cosmetics; Walter Lord, official photographer; Miss C. A. Rebar, nurse; Dr. Olivier, physician; Chief Duncan and four hundred other police officers.

The lineup for the Fats and Leans will include the following amateurs, whose documentary qualifications will be displayed on the ice before the game starts about 7.50: Fats—Bob Gray, goal; Jack O'Neill and Val Rinaldi, defense; Charlie Sartoris, Jack McPhail, Fred Donkin, Martin Kubik and W. A. Vaughn, forwards. Leans—Sam McDowell, goal; Jack Kerr and Doc Little, defense; Jack McDonald, Billie Evans and Bartlett, forwards; Lance Morgan, Bill McVey, J. E. Upton, subs.

We understand that Art Kelly will referee both games. Don't come unless you are prepared to yell your head off. If you are unable to laugh your money will be tearfully refunded as you leave the arena. The proceeds will go towards the Trail Ranger fund.

As we go to press, we learn that all legislative sessions and mock parliaments throughout Canada will observe 144 minutes of silence while these games are in progress and all steamship, airship, railway, telegraphic and telephonic lines will observe stillness and quiet.

BLAIRMORE DEFEATS NANTON IN PLAYDOWN OPENER HERE

In one of the fastest and most thrilling hockey games seen in this district for some years, Blaimore defeated Nanton on Monday night to the tune of eight to three.

In the opening period Blaimore did not appear to be in regular stepping form, but matters looked considerably different in the second and entirely so in the third, when our boys were skating rings around the visitors, scoring four times without allowing them to reach the net. The ice was in excellent condition and every second brought hectic cheers from the five hundred spectators. Blaimore left for Nanton by this morning's local, where the return game will be played tonight. Quite a number of fans accompanied them on the trip.

LATER — According to arrangements just made, should Blaimore win against Nanton, they will play a sudden-death game with Cereal at High River tomorrow night.

Another British Stronghold
Harbor At Malta One Of World's Greatest Naval Stations
The island and harbor at Malta, under British management has been converted into one of the greatest naval and coaling stations in the world. In strength and impregnability it is said to rival the famous rock of Gibraltar.

The old fortifications were useless against attack of modern aircraft, and the British have completely altered the naval batteries and land defenses of the islands. Today they are among the most formidable in the world.

A large military and civil airfield has been constructed at Hal Fes, making another link in Britain's world-wide system of air communication. A floating dry dock, capable of accommodating the largest vessels in the world, as well as new refitting yards, large magazines and many other improvements, have been completed.

Malta is the headquarters of the British Mediterranean fleet, probably the most powerful flotilla of warships afloat, and is also one of the most important ports of call in the world. It lies midway between Gibraltar and Port Said. Although in area Malta is three times the size of Manhattan Island, it has only one-tenth the population of the Borough of Manhattan. The last census showed less than 225,000 inhabitants.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found.

Read what Mrs. Mary Hill, Centre Dunsmuir, Ont., says concerning these Tablets: "I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones." Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colic and severe fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

GRIDDLE CAKES

Who doesn't like griddle cakes? From father to the youngest member of the family, every one clamors for more—why they are tasty! Here is a tested recipe:

- 1 cupful Borden's St. Charles Milk.
- 1 cupful water.
- 2 tablespoonfuls melted butter.
- 1 egg, well beaten.
- 3 cupfuls whole flour.
- 1 teaspoonful salt.
- 4 teaspoonfuls baking powder.
- 2 tablespoonfuls sugar.

Combine the milk and water, add the shortening, sugar, and the egg, and beat in the dry ingredients which have been sifted together. Beat thoroughly and fry on a slightly oiled griddle, or on an un-oiled aluminum or soapstone griddle. If very thin cakes are desired, add two more tablespoonfuls of St. Charles milk and water. For further interesting recipes write for the Borden Cook Books, addressing The Borden Co., Ltd., Dept. WL, 140 St. Paul St., Montreal.

Just about the time you wonder why someone has escaped the penitentiary so long, he comes out as a candidate for some important office.

Good Market For Whitefish
Calgary Man States U.S. Favors Great Slave Lake Product
People in Chicago may soon be eating Canadian whitefish purchased on their home market for 15 cents a pound, according to W. J. Madden, of Calgary, Alta., who was in Montreal recently making necessary rail transportation arrangements.

The fish will be caught on the Great Slave Lake, a lake which provides almost virgin fishing waters, according to Mr. Madden. He stated that it abounds in whitefish, a food that is looked upon with favor throughout the United States. He plans to operate a number of five-ton trucks over the ice of the Slave and Athabasca rivers to Waterways, and then to Chicago by rail, taking about four days in all to complete the journey.

At present, however, the open season for whitefish in Canada ends in February, and Mr. Madden went to Ottawa to seek an extension of the season to the end of March. He believes that if this extension is granted, Chicago will provide an active market for whitefish during the Lenten season.

Perseverant Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wisest precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most certain remedy for eradicating the disease from the tender air passages.

Canada Early Prize Winner
That Canada early took foremost place in fish culture is indicated by the fact that in 1883 at the Great International Fisheries Exhibition in London, she carried off the highest award, namely, the gold medal and diploma for the best and most complete fish-breeding establishment in the Exhibition.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient not only for the eradication of worms but also as a toner up for children that are run down in consequence.

"Daddy," cried the doctor's small son, "I want a drink."
"Sorry," murmured daddy, sleepily, "but I'm all out of prescription blanks."

The Germans have built a car that will run one mile on half an ounce of gas. Those Christmas cigarette lighters will come in handy yet.

Stop the Cough. Coughing is caused by irritation in the respiratory passage and is the effort to dislodge obstructions that, come from inflammation of the mucous membrane. Treatment with Dr. Thomson's Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

"So Barker is doing a cash business and making lots of money."
"Yes, he's feathering his nest with down payments, so to speak."

Minard's Liniment for Coughs and Colds.

SUNDAY SCHOOL LESSON
FEBRUARY 24
CHRISTIAN GROWTH
Golden Text: "But grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3, 18.
Lesson: John 1:40-42; Matthew 10: 15-18; John 21: 15-19; Luke 24: 48; Ephesians 4: 11-18; Philippians 1: 9-11; 3: 12-16; Colossians 1: 9-11; Hebrews 4: 1-5.
Devotional Reading: John 15: 1-8.

Explanations and Comments
Becoming a Follower Of Jesus
John 1:40-42.—After a day in the company of Jesus (read verses 35-39), Andrew sought his brother and told him that he and John had found the Messiah. Messiah (Hebrew, and Christ (Greek), mean "The Anointed One." Hebrew kings were anointed with oil when given their office, and the Spiritual King was thought of as The Anointed. Then Andrew brought Peter to Jesus.

The nearer one is to us, the greater our responsibility for him. Our own brothers and sisters know us better than do those outside the family circle; they know our faults and failings, and therefore we shrink from talking to them about our spiritual experiences. It may require courage to do this, but our Christianity is shallow if we cannot do it.

As he looked upon Andrew's brother, Jesus said, "Thou art Simon the son of John; thou shalt be called Cephas." Cephas, the Aramaic name, and Petros, the Greek name, mean "a stone," a detached piece of rock. Jesus knew Peter was too impulsive to be reliable, but he also knew that he would become the rock on which he would one day build his church (Matthew 16:18-19). "In a gallery in Europe there hang side by side Rembrandt's first picture, a simple sketch, imperfect and faulty, and his great masterpiece which all men admire. And so in the two names, Simon and Peter, we have first a rude fisherman, the man as he was before Jesus began his work on him; and, second, the man as he became after the friendship of Jesus and the teaching of Jesus and the discipline of His hand wrought the transformation in him."—J. R. Miller.

Old-Time Athletics
An oldtimer was complaining that the schools devote too much time to athletics nowadays. "Well," someone asked, "what did you old-timers do when you went to school?" "We had fights," replied the old resident.

Wine-making is the principal industry of Portugal.

Suggests Fire Insurance Pool

Prairie Provinces May Carry Own Risk On Schools
Suggestions to the school trustees organizations of Saskatchewan and Manitoba that a fire insurance pool be undertaken on the three prairie provinces covering insurance on school buildings will be made as a result of the adoption of a resolution by the Alberta School Trustees' Association at its annual meeting in Lethbridge.

A report was received from W. E. Turner of Calgary, delegated last year to investigate the possibility of the schools of the province organizing their own fire insurance scheme. His report showed that, on the insurance premiums paid and losses of the past two years, the Alberta boards could build up a half million insurance fund in five years and it was felt that if Saskatchewan and Manitoba would come into the undertaking the plan would have good chance to succeed.

Calgary was chosen as the convention city for the 1930 convention.

CHAPTER XIV.—Continued.

Hand stripped to the waist. Connie's eyes rested on the mighty frame of this huge blond; the bunched and rippling muscles, the great chest covered with a mat of thick hair, and the enormous limbs. Her glance then turned and roved to the man who was to fight for her honor. Donald's eyes were like burning coals. His face had regained its color, but was contorted with a passion that made him seem unhuman. Yet he appeared a mere stripling in comparison to his bulky antagonist.

For a moment Connie became a primitive woman. She felt as though she could rend and tear. Her eyes darted blue lightnings of wrath toward the man who had insulted her, and her small hands clenched in impatient fury. Her nails cut into her palms as she exercised every ounce of self-control to keep from screaming aloud. Donald was fighting for her. She caught her breath in a quick start. His heart was beating with alternate throbs of joy and fear. A sudden fit of trembling seized her, and her head felt light and giddy.

Hand's reputation as a rough and tumble fighter was well known throughout the province. It was his proud boast that he never had been whipped. He advanced now, a sinister leer on his face. Andy ran to Donald's side.

"Box 'im, Donnie," he whispered. "Don't let 'im get 'ed on you."

"You goin' to vip 'em? De dude goin' to vip me?" Achil' scoffed Hand in guttural accents.

He came slowly forward with arms spread wide, his thick fingers working convulsively. Donald leaned slightly forward and waited.

As he neared him, Hand tore in, sure of himself in the rough and tumble. Donald side-stepped the big man's first rush and shot his left to his face. He was not properly set for the blow, but it stung Hand to madness.

"Achil' he grunted, "stand and fight you d— coward!"

He came on, his arms swinging wildly. Leaping aside, Donald's heel struck a stump, and before he could regain his footing the giant's arms were around him in a bone-crushing grasp. His hands were clamped at Donald's waist, and the big head was pressed suffocatingly against his throat. Donald was forced slowly backward to strike the ground, with a thud, the big man on top.

"Now I got you!" panted Hand as he released his hold on Donald's waist and aimed a blow at his face. With a quick movement the under man turned face down. Hand struck him viciously as he lay prostrate under him.

Connie's eyes were wide with horror, and a muffled scream escaped her lips as the blow fell.

With a quick, convulsive movement of his little body Donald thrust Hand from his back and sprang to his feet.

his feet. Whirling quickly as the foreigner came toward him, he sent a volley of blows to his opponent's face. Hand staggered, but did not fall. His lips were cut and bleeding; his nose was broken; and he spat out several broken teeth. Any one of the blows landed was sufficient to send an ordinary man down for the count, but still the gargantuan giant came on.

In and out Donald flashed, his arms moving like steel pistons. Hand could not keep away from the punning left hand of his lighter opponent. Men not trained in the science of boxing have no punishing power in their left hand, but depend solely on their right. Such was the case with Hand. His style did not vary for a moment. With head lowered between his powerful shoulders, he would bore in, swinging wildly in the hope of landing a lucky punch, or striving to get a hold on his adversary. Donald's hand kept beating a tattoo on his rock-like jaw, but still Hand came forward, slowly and reluctantly as a steam-roller.

Crowding Donald back to the line of tense spectators, Hand rushed him into the scattering crowd and seized him in a rib-cracking embrace. Donald broke the hold, but not before the brute had buried his head in his eye. With the blow Donald's senses reeled and the blood gushed from a wide gash on his brow. A blow from the foreigner's big flat fist then caught him over the heart and sent him staggering to his knees. With a curse the big man came after him. Andy shouted hysterical words of advice.

Donald came slowly to his feet and mechanically side-stepped as Hand evaded him, until his head cleared, and then summoned his remaining strength into one mighty blow that landed flush on his opponent's midriff. The blond bent over to his knees with a dull grunt.

"Go after him!" yelled excited voices from the crowd.

Donald stepped forward with fist drawn back to strike the kneeling man, but his arm fell to his side and he shook his head. "Get up!" he commanded hoarsely.

Even the strikers gasped their appreciation of this honorable act. A murmur of applause came from both sides. The foreigner shook his shaggy blond head and came uncertainly to his feet and the sanguinary battle went on. Both men were tired. Hand's breath was coming in short-choking gasps from his tortured lungs, and his face was one mass of blood. Donald's left eye was closed; his lips were split, and the sweat over his eyes covered his body with blood. His arms were tired from pounding the iron jaw of his adversary. The big logger's strength was waning; the pounding administered by Donald was beginning to tell. But Donald did not weak to avoid his rushes. In a clinch Hand again butted him with his head.

Blackie, his eyes blazing, leaped forward with a peavy handle in his hand. "You fight fair, d— you, or I'll brain you!" he shouted. One of the strikers attempted to wrest the peavy handle from his hands. Blackie felled him with a blow of his flat. It looked for one tense moment as if there would be a general melee. There came sudden muttering from the crowd of strikers.

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any druggist.

"Back!" John Miller's voice rang out sharp and clear. "Till the first man that interferes!" The eyes shining over the long-barreled Colt held a dangerous glint. The men who had moved to the centre backed away hurriedly.

Back and forth the combatants struggled, neither gaining any decided advantage, each trying to land a blow that would end the battle. Reeling, gasping, striking, falling to their knees from sheer weakness, the men fought on under a burning noontday sun.

No knight of old ever fought more nobly for a fair lady's honour than did Donald McLean that day by the lake-shore. His undershirt was torn to tatters, showing his white skin blotched with welts and bruises. He was losing his sense of distance. Swinging wildly with his left, his wrist struck Hand's adamant jaw and the onlookers saw his face writhe in pain as the arm fell helplessly to his side.

"E's broken 'is 'and," groaned Andy.

"Oh, stop it, Andy, please stop it!" sobbed Connie, her arms held out in entreaty.

Donald's face turned a sickly grey, as the well-nigh senseless fighter staggered weakly toward him, he with a strength born of agony whipped his right to his opponent's sagging jaw. The big man faltered, sank slowly to his knees and, then stretched at full length, his face pressing the soil, quivered and lay still. No sound came from the crowd. The thing had been too stupendous for immediate shouting or applause. Donald stood for an instant, awaying uncertainly, then turned to stumble toward his cabin.

Blackie sprang to the top of a stump and swung his hat in the air. "Three cheers for our boss!" he yelled wildly.

A roaring cheer came from the crowd with a right good will.

"Boys, let's go back to work!" shouted Blackie.

"We're with you, Blackie!" they answered.

Gillie reached Donald's side as he tottered into the cabin and caught him in his arms as he collapsed into unconsciousness. The big man picked him up tenderly and placed him on the bed.

"Get some 'ot water and towels and telephone for Dr. Paul," commanded Andy tersely.

As Gillie left to fill Andy's commission, Connie fell on her knees by the bedside and wept with wild and passionate violence. "Oh, Donald!" she sobbed, "you fought for me. I love you! I love you! Oh Andy, turning her streaming eyes to the little man, 'he won't die, he'll be! Tell me he won't die!' Her trembling fingers were smoothing Donald's dark hair, and she kissed his battered face tenderly, all the while calling his name hysterically.

With tears in his eyes and a heart full of sympathy, Little Andy looked down on the recumbent form of his unconscious friend. "Dr. all right, Connie. 'E'll be all right in a few days," he answered her in a choking voice.

(To Be Continued.)

Recipes For This Week

(By Betty Barclay)

PINEAPPLE JELLY

- 1 tablespoon gelatine.
- 1 cup cold water.
- 1/2 cup boiling water.
- 1/2 cup canned pineapple syrup.
- 3 tablespoons lemon juice.
- 1/2 cup sugar.
- 3 tablespoons pineapple cubes.
- 3 tablespoons Maraschino cherries.
- 3 tablespoons cut walnut meats.
- 3 tablespoons cubes of orange.

Soak gelatine in cold water; dissolve in boiling water, and add pineapple syrup, lemon juice, and sugar. When gelatine is beginning to get stiff, stir in the fruit and nuts, of which there should be, in all, three-fourths of a cup. Turn into a mold, and chill.

MOCK DUCK (Norwegian)

- 2 pork tenderloins.
- 1 tablespoon butter.
- 1 cup sweet cream or very rich milk.
- 5 boiled prunes.
- 1 cup thick sour cream.
- 2 apples.
- Salt and pepper.

Cut tenderloins half through lengthwise. Open and pound flat. Cut apples in this slices, cover the tenderloins. Remove stones from prunes and put over apples, add seasonings and cover all with second tenderloin roll and tie securely. Brown in butter. Pour on a little broth, the sweet and sour cream, and cook slowly for one hour.

Teeth and Health

Issued by The Canadian Dental Hygienic Council and The British Columbia Dental Society

GINGIVITIS

Meaning what? It is a sum, implying inflammation and gingivitis—the soft tissue immediately encircling the tooth.

This, then, is an inflammatory condition of the gum tissue, adjoining the teeth.

Consult your mirror: Notice how snugly these tissues hug the tooth surfaces in health, filling the interstices and guarding the supporting structures from injury and disease.

Now you will have observed that the gingivae are not attached to the tooth surfaces for a short distance down and hence are "free", also that their color in health is a lustrous pink.

But the inflammation appearing, you have a rush of blood within—and soreness develops, so that you readily perceive their cause, far from the state of health.

Now what might cause this? It may be the result of any disturbance in the alimentary tract. General ill-health, diseases of organs or glands, diabetes, or run down nervous system may lead to this disorder.

Among the more positive causes, fifth and tartar no doubt play a part; the wedging of food between teeth with faulty contacts, and disease-producing organisms are all held responsible.

For any reason, there is a slight opening between two teeth, food which is tough and stringy will be pressed upon the underlying tissue. A single such occurrence may do but little harm provided the food is promptly removed; but where there is this repeated pressure and irritation, the tissue is inflamed much of the time. Similarly the crowding or "tartar" upon these tissues or repeated injuries from whatever source will set up this process.

It is in these gingival tissues then, that the initial injury may occur which, if neglected, frequently leads to the infective process known as pyorrhea. So that any inflammatory condition or tenderness of the gums should receive early recognition, and have prompt remedial treatment at the hands of your dentist.

Has Increased Crop Area

In Manitoba there is one tractor for every 4.5 farms; in Saskatchewan one for every 4.7 farms and in Alberta one for every 7.5 farms. The mechanical equipment has been a material factor in the large increase in area under field crops in the prairie provinces, which has increased from 3,600,000 in 1928 to 38,858,263 acres in 1928. Practically 8,000,000 of this increase has taken place since 1920.

Magistrate (dealing with New Year's Eve episode): "Who was driving when you collided with the other car?"

Merry Motorist (triumphantly): "None of us; we were all in the back seat."

In the Law Courts, London, there are 1,100 rooms, a printing press and a blacksmith shop.

To believe with certainty we must begin by doubting.—Stanislaus.

Bracing Breakfast for Bitter Weather

SURE WHEAT

Serve with piping hot milk - Doesn't overload your stomach - Makes you alert and active - Fine for youngsters

Made by The Canadian Shredded Wheat Company, Ltd.

Belongs To Middle Class

Is an Ordinary Star In Scale Of Brilliance Says Astronomer

The sun is a very humble unit amid the great stellar population according to A. S. Eddington, the astronomer. It is, he says, a very ordinary star about midway in the scale of brilliance. We know of stars which give at least 10,000 times the light of the sun; we know also of stars which give 1-10,000 of its light. But those of inferior light greatly outnumber those of superior light.

In mass, in surface temperatures, in bulk, the sun belongs to a very common class of stars; its speed of motion is near the average; it shows none of the more conspicuous phenomena such as variability which excite the attention of astronomers. In the community of stars the sun corresponds to a respectable middle class citizen.

It happens to be quite near the centre of the local star cloud; but this apparently favored position is discounted by the fact that the star cloud itself is placed very eccentrically in relation to the galactic system (the Milky Way), being in fact near the confines of it. We cannot claim to be at the hub of the universe.

Little Helps For This Week

"Strengthened with all might, according to His glorious power, unto all patience and long-suffering with joyfulness."—Colossians 1: 11.

I longed to gird the harness on; To work with might and will; Stern was the voice that said to me:

My child, wait and be still. He only knoweth how to serve, Who knoweth how to wait; Thus test I all who wish to work Within my vineyard gate.

—Mary Frances Butts.

Working or waiting, our souls will hang on Him. And waiting, as we must completely and unreservedly, is a sacrifice of self, a real martyrdom no less than working. To win the soul in patience, to bear the trial of delay, to watch for the dawn through the chill hours which precede it, to keep fresh and unweary, is the greatest hope that Christ will come, is a witness to the powers of the unseen world, which the Spirit of God alone can make possible.

—Brooks Foss Westcott.

No country can approach Canada in the use of the plane in protective forest control.

Simple Precautions Against FLU

Sore Throat

—The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore, often just a little hoarse—soon the infection goes lower—the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease-breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

WINDOLITE

The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

THE sun is the all-powerful life producer. Nature's universal disinfectant and germ destroyer, as well as a stimulant and tonic. WINDOLITE is the sun's most important ally.

Medical research has definitely proved that from the point of view of Health and Hygiene, the most effective among the sun's rays are the Ultra-Violet rays, which possess the greatest power for the prevention and cure of disease and debility.

Science has further established that ordinary window glass does not allow the passage of Ultra-Violet rays, so that by using glass we are artificially excluding these vital health-giving rays. Therefore, the invention of WINDOLITE has completely satisfied the long-felt want. Exhaustive experiments have conclusively proved that it is a most effective substitute for glass, that it transmits the Ultra-Violet rays, and that its use has a most beneficial effect on the growth and development of plants and children and on the well-being of cattle, enabled for the first time to have healthy light instead of darkness in their sheds.

Indeed, the discovery of WINDOLITE has during the last six years completely revolutionized gardening, given a new impetus to poultry breeding, increasing the egg-laying capacity and fertility of chickens, has greatly improved the health of calves and lambs, being used in domestic and household requirements.

WINDOLITE stands for 100 per cent. sunlight. It makes light hit strong windows or cat-sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used in sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold and wet pet crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs. Weigh a square yard of glass of ordinary thickness, weighs about 135 to 150 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

HOCKEY DESERVES GREATER SUPPORT

Blairmore hockey clubs have given the town three championship teams in three years, yet they get the poorest support in The Pass. Other teams can get from two to three times the gates we get here. The hockey clubs have lost over \$250 in trying to give the fans hockey. We ask, is this fair? The arena has had such poor support this year that the management figure they will be obliged to close the arena on the 28th of this month, as keeping it open longer simply means a bigger deficit for the year. It also looks as if we would not have a hockey team here next season.

MIKE VOLF DIES OF INJURIES AT COLEMAN

A miner named Mike Volf died at Coleman on Thursday morning last from injuries sustained from a fall of rock while working in the McGillivray Coal Co.'s mine the day previous. Volf was crushed beneath the rock, his arm being practically torn from the body.

An inquest was held before Dr. J. Olivier as coroner on Friday, with the following jury impanelled: David Hoyle, foreman; Herbert Snowden, Roland Laslett, James Allan Robert Jenkins and William Smith. There were present, besides witnesses, the following: Moses Johnson, inspector of mines; N.ble McDonald, mine superintendent; D. Gillespie, E. Royle and Dr. Borden.

According to one witness, the victim's right name was Millen Vukovich. His mine partner was named Ivanovich.

After hearing a number of witnesses, the jury retired at 8.15 p.m. and returned at 8.30 with the following verdict: "We find that Mike Volf came to his death at the Coleman miners' hospital on the 19th day of February, 1929, as a result of injuries caused by a fall of rock on the 12th day of February, 1929, while following his occupation as miner in Pillar 96, No. 3 Level of the McGillivray mine at Coleman. We attach no blame to any person."

The remains of Mike Volf were laid to rest at Coleman on Saturday afternoon.

HOCKEY PLAYER IS GIVEN \$100 FINE

CLARESHOLM, Feb. 19. — The Woodley-Phillips assault case came up before Judge McDonald on Friday. Because of the large number of people interested, it was held in the I.O.O.F. hall.

The case arose out of a mixup at a hockey game in Nanton some weeks ago. The charge was reduced to common assault and the defendant was found guilty and fined \$100, or two months with hard labor.

Miss Nellie Royle was a visitor to Coleman on Monday evening, as a guest at the nuptial shower to Miss Minnie Chalmers, whose marriage to James Wheatley, of Banff, takes place at Coleman on March 1st.

Jack McDonald, Bartlett, Doc Lillie, Sam McDowell and Bill Evans started fasting on Monday, preparatory to acting the skinner part at the hockey fest tomorrow night. The fat guys, on the other hand, are swallowing rolled cats in dry form and drinking water afterwards, in the hope of swelling even bigger than they are.

Bulwark of \$100,000,000 Protects Sun Life Investments

Unique Financial Position of Company Discussed by President Macaulay in Annual Address.

MONTREAL, Feb. 20.—The phenomenal growth, and success, of the Sun Life Assurance Company of Canada lends widespread interest each year to the annual address of the president, Mr. T. B. Macaulay.

The annual meeting, which has just been held, disclosed a continuation of this expansion, but it was more noteworthy still for an announcement, almost startling in character, by Mr. Macaulay regarding the financial strength of the Company. He stated that so carefully had the directors anticipated every possible adverse contingency in the money market that even a panic which would reduce the value of the assets by one hundred million dollars, would still leave untouched and unimpaired the shown surplus and reserves of the Company.

Mr. Macaulay dwelt as well in a most interesting manner upon the relative merits of the varied securities in which the insurance companies invest their funds, and of how traditional views on investment have altered owing to the changed conditions of modern business. He said in part: "It is a great pleasure to move the adoption of this report, for the record it sets forth is a remarkable one. "A mere statement of the increase over the figures of the previous year is impressive. In income the increase is \$41,972,000; in assets \$87,650,000;

in surplus \$9,157,000; in new insurances \$112,836,000; and in total income \$408,925,000. A company with total business equal to these increases would be a large and powerful institution. It is but three years since we rejoiced at passing the mile-stone of \$1,000,000,000 of assurance in force, and yet already we are nearing \$2,000,000,000, while at this moment our assets exceed \$500,000,000.

"But there is another feature even more striking and important. Advance figures indicate that the increase over the previous year in the new business written by the combined life companies of the continent was approximately 8 per cent, and the increase in the combined total in force approximately 9 per cent. Against these percentages let me place the figures of the Sun Life: our new assurances increased 84 per cent, while our total in force increased 27 per cent.

"I need not further emphasize the rapid expansion of our business. It is but a continuation, though in accelerating degree, of our normal condition. That the company is extraordinarily popular with the insuring public is evident. But people will hardly show so pronounced a preference without reason. That reason unquestionably is the great strength of the company, and its unusual profit-earning power. The earnings an-

nounced in the report are slightly in excess of \$40,000,000; but it is clearly intimated that had we desired to do so we could have taken credit for a much larger amount. We however, follow our usual conservative policy. We always have before our minds the possibility of a business depression, which might occasion heavy shrinkage in market values of all classes of securities. Mortgage securities may at such a time become totally unsaleable, but that fact is not patent; while every fluctuation in the prices at which stocks and bonds

can be turned into immediate cash is quoted on the Stock Exchange."

Mr. C. J. Tompkins, Blairmore, is the local district agent.

The Altermatt Orchestra furnishes music for the Moose Saturday night dance.

W. Manson, for one year assistant superintendent of the Lethbridge division of the C.P.R., has been transferred to Winnipeg as assistant superintendent of the Winnipeg terminal. He will be succeeded by J. M. Cordingley, chief dispatcher at Saskatoon.

NEW TORONTO HOSTEL WILL HAVE BIG ORGAN

One of the finest organs on the continent, a product of the famous Canadian firm of organ makers, Casavant Freres of St. Hyacinthe, Que., will be installed in the Royal York hotel in Toronto, it has been announced by the Canadian Pacific Railway. This great hostelry will contain 1200 rooms, the largest hotel in the British Empire, and will be opened to the public early next summer. The only organ in Canada equipped with five manuals, it consists of six organ-units: great, swell, choir, orchestral, bombarda and pedal.

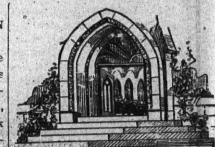

Over 300 miles of insulated copper wire will be used on the windings of approximately 2150 electro-magnets employed in the organ-mechanism, and for the cables connecting these magnets with the console. The organ is now under construction at St. Hyacinthe, and when ready for shipment will weigh over fifty tons, and its multitude of parts will fill four freight cars of the largest type in use today.

The organ is now under construction at St. Hyacinthe, and when ready for shipment will weigh over fifty tons, and its multitude of parts will fill four freight cars of the largest type in use today.

F. G. FORSTER CALLED BY DEATH

An old time resident of the province and a valued public servant, in the person of F. G. Forster, died at his home in Edmonton on Wednesday after an illness of several weeks. Mr. Forster was well known among the newspaper fraternity of the province, having been at one time editor of the Medicine Hat News. He later occupied the position of assistant publicity commissioner for the Alberta government and in recent years has been supervisor of licenses for the Liquor Control Board.

An examination of the Bellevue Senior First Aid class, St. John Ambulance Association, took place at the Mine Rescue Car No. 1 and the storekeeper's office at Bellevue on Sunday last, with Ed. Royle as instructor. The following presented themselves for examination: Clifford Miller, Joseph Christie, Clarence Woodward, Ralph Ellison, Clyde McDonald, Cyril McDonald, Leslie McDonald, Ludwig Maurice, Thomas Fairfull, Salvatore Conin of the West Canadian Collieries, and Arthur Fournier, Joseph Bosley and Charles Fournier, of the Mohawk mine. The examiners were: Dr. Reinhorn, Fred Padgett, Ben Milnes and Joe Shevels.

1929 COUNCIL FORMED

The first regular meeting of the newly-formed town council for 1929 took place last night, following the administering of the oath of office to James H. Farmer, as mayor, and William McVey, Joseph Kubik and Mark Sartoris, as councillors, before Commissioner Kelly.

The minutes of the last meeting of the old council were adopted as read, and the slate of committees as presented by Mayor Farmer was approved as follows:

Finance—Sartoris, Ferguson, Beebe.

Works—McVey, Ferguson, Kubik, Water—Beebe, McVey, Morgan, Light—Ferguson, McVey, Kubik, Police—Kubik, Morgan, Sartoris, Health and Relief—Morgan, Beebe, Sartoris.

The first named in each case is chairman.

A number of accounts were passed for payment followed by a general discussion of affairs.

The appointment of officials will be on the order of business at next regular meeting.

Edward J. Higgins has been elected

head of the Salvation Army, succeeding the deposed General Booth.

We regret to learn of the death of Mrs. Altham, of Hillcrest, who passed away suddenly at Vancouver last week, following a critical operation.

Ratepayers of Hanna voted strongly in favor of spending \$8470 in the construction of concrete sidewalks and \$2630 for the payment of a road maintainer.

J. H. Ross, vice-principal of the Provincial Institute of Technology and Art, Calgary, has accepted the position of principal of the new Calgary high school.

Babe Ruth was thirty-five the other day and he got his picture in the papers. Strange, but nobody gave a darn when we celebrated our thirty-fifth birthday a few hours ago.

According to the editor of "Questions and Answers," in the Lethbridge Herald, Newfoundland was discovered by Sir Humphrey Gilbert on August the 4th of August, 1583. Next!

STRAYED to my place two months ago one black heifer with horns. No brand visible. Claimant must pay for this notice and feed—MRS. H. CAMERON, Beaver Dam Ranch, Burmis.

At last Calgary is to have a post office building in keeping with a city of its size. The new structure is to cost in the neighborhood of \$1,500,000 when completed.

A cablegram from Scotland on Friday morning last announced the death of Mrs. Hyslop, mother of Mr. W. K. Hyslop, our local storekeeper. Mrs. Hyslop had reached the ripe age of eighty years.

The mine rescue car, in charge of Ed. Royle, is at Blairmore, after a month's visit to Bellevue mine, where several employees of the West Canadian Collieries' and Mohawk Coal Co. (Maple Leaf) took instruction in Mine Rescue and First Aid work.

First Landlady: "I keep my lodgers longer than you do."

Second Landlady: "No, you don't. But they're so thin they look longer."

THE PASS FIFTEEN YEARS AGO

(The Blairmore Enterprise, 1914)
Jan. 24.—Lord Strathcona, Canada's high commissioner in Great Britain, died at London, England, on Wednesday morning, aged 93.

Ellen, wife of W. L. Oimette, mayor of Coleman, died at Coleman on Thursday.

The Rev. David Ross has accepted a call to become pastor of First Baptist church at Lethbridge.

At a mass meeting held in the Miners' hall on Monday, it was decided to merge the local Conservative Association and the federal association, to be known as the Blairmore Conservative Association. The officers elected were as follows: I. Loughheed, honorary president; A. Chatfield, Sam Ennis and Joe Montalbetti, honorary vice-presidents; L. H. Putnam, president; J. M. Carter, vice-president; H. G. Bigelow, secretary-treasurer.

The officers of Crows' Nest Encampment No. 8, I.O.O.F., were installed on Thursday night as follows: P.C.P., W. J. Bartlett; C.P., R. C. Green; H.P., H. B. Berry; S.W., H. G. Bigelow; J.W., J. McPhail; R.S., A. Morency; treas., J. Montalbetti.

John Krafchenko, gunman and proved desperado, who is believed to be the man who held up and murdered the Plum Coulee banker, has been arrested in Winnipeg. A reward of \$10,000 was offered for his apprehension.

The marriage took place on Monday evening of Miss Maggie Teppa to Mr. Serafina Tronò. The ceremony was performed by Rev. J. P. Hunter at the residence of P. Plator.

Jan. 31.—The first regular meeting of the new 1914 council took place on Monday night, with Mayor Lyon and Councillors Beebe, Hinds, Rosse and Sinclair present.

Capt. W. A. Beebe, as chairman of the school board, has presented a number of books, entitled "The World's Greatest Classics," to the Blairmore school.

Feb. 7.—In the Crows' Nest Pass Hockey League, Blairmore leads against Coleman, Frank and Bellevue. Blairmore has played six games, won five and lost one.

The marriage of Miss Vina Goodwin to Mr. John Milnes took place at Bellevue on January the 28th, Rev. W. H. Irwin performing the ceremony.

At the Frank Methodist church on Sunday night next, Rev. W. T. Young will preach on the subject: "John Huss, the Bohemian martyr."

Skating in the local postoffice is prohibited and the law has no respect for those who mistake that institution for the skating rink.

Thirty-seven degrees below zero was registered here on Thursday morning.

Born, on February the 3rd, to Mr. and Mrs. Charles Harrison, a nine-pound son.

Norval Baptie, the world's greatest skater, appeared at the local rink last night.

At Monday night's meeting of the town council, action was taken to dismiss the town police and town solicitor.

The following pupils of the local school were accredited with regular attendance and punctuality for the past month: Marion Ennis, Sam Gibbeau, Queenie Williams, Louise Gresham, Jimmie Nemrara, Bobby Sparks, Russell Vincent, Maurice Bond, Lindsay Carter, Florentine Houbreges, Frank McLeod, Eleanor Sparks, Vernon Hunter, Charlie Excoffin, Mary Houbreges, John Keever, Elizabeth McLeod, Henrietta Robbins, William John Evans, Blanche Pinkney, Beatrice Williams, Grace Turner, Grace Robbins, Harry Merrifield, Lou Lyons, Katie Aschachet, Beatrice Baird, Margaret Stene, Arthur Ennis, Ralph Rosse, Janet Nicol,

SUN LIFE ASSURANCE COMPANY OF CANADA

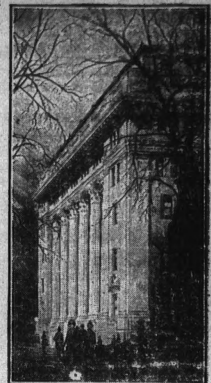

A TOWER OF STRENGTH

Assurances in force (net)	\$1,896,915.000
An Increase of \$408,925.000	
New Assurances Paid for	441,244.000
An Increase of \$112,836.000	
Total Income	144,747.000
An Increase of \$41,972.000	
Surplus earned during the Year	40,264.000
Payments to Policyholders and Beneficiaries	49,920.000
Surplus and Contingency Reserve	66,938.000
An Increase of \$9,157.000	
Total Liabilities (Including Paid up Capital)	422,020.000
Assets, at December 31st, 1928	488,958.000
An Increase of \$87,652.000	
Rate of Interest earned on mean invested assets (net)	6.58%

DIVIDENDS TO POLICYHOLDERS INCREASED

FOR NINTH SUCCESSIVE YEAR

The Company has also inaugurated the practice of paying a special maturity dividend on participating policies, ten or more years in force, terminating by death or maturity.

EXTRACTS FROM DIRECTORS' REPORT

After deducting amounts re-assured, the total assurances in force now amount to \$1,896,915,934.57, an increase of \$408,925,234.48. Policies in force number 633,240, and in addition 156,293 certificates of assurance are held by employees of corporations and firms under the group plan.

While every field of operation contributed its full share to these impressive advances, the rapid development of our business in Great Britain and the United States is especially noteworthy. The generous reception of our Company in countries served by powerful domestic institutions is particularly gratifying, as testifying to widespread appreciation of our record and services.

The amount paid to policyholders since organization, together with the amount at present held for their security or benefit, exceeds the total amount received from them in premiums by \$111,370,229.10.

The strength and resources of the Company have been still further enhanced.

The net rate of interest earned on the mean invested assets, after making provision for investment expenses, has risen to 6.58 per cent. Dividend increases, bonuses and stock privileges, accruing on many of the Company's holdings, contributed substantially to this gratifying result.

A net profit of \$11,028,854.59 has been realized from the redemption or sale of securities which had risen to high premiums.

The securities listed in the assets have been valued at figures substantially below the values placed on them by the Government. This undervaluation of our securities represents an important safeguard against possible adverse market fluctuations, additional to the reserves specifically provided against that contingency.

We are again able to report that on the bonds and preferred stocks listed in the assets, not one dollar,

due either as interest or as dividend, is in arrear for a single day; while the dividends accruing to common stocks exceed by several million dollars those payable on the same stocks at the time of purchase.

The surplus earned during the year, based on the values given in the accounts, amounted to \$40,264,088.52.

\$10,000,000 has been deducted from the already heavily marked-down value of securities, as additional provision against possible fluctuations, increasing the amount so set aside to \$20,000,000.

The special amount set aside as a liability to provide for unforeseen contingencies has been maintained at \$12,500,000.

\$15,822,339.65 has been paid or allotted as profits to policyholders during the year.

After making all deductions and allocations, \$9,157,966.34 has been added to the undivided surplus, bringing the total over liabilities, contingency accounts, and capital stock, to \$54,438,862.48.

The continued prosperity of the Company enables your Directors to announce, for the ninth successive year, a substantial increase in the scale of profits to be distributed to participating policyholders during the ensuing year.

In addition, your Directors have inaugurated the principle of granting a Special Dividend on participating policies maturing after having been in force ten years or longer. This new bonus will enable policyholders or beneficiaries whose withdrawal is occasioned by the maturity of policy contracts, to participate in the accumulated surplus which it has not as yet been considered prudent to divide.

The effort to provide life assurance at the lowest net cost obtainable has been increasingly appreciated. Our policyholders will be gratified by this further evidence of our desire that the Company's prosperity shall be fully shared by its members.

SUN LIFE ASSURANCE COMPANY OF CANADA

Elizabeth Williams and Rennie Gresham.

A lodge of the L.O.G.T. was organized in Blairmore on Monday night. The officers are: chief templar, G. H.

Wycheley; vice-templar, F. M. Pinkney; chaplain, J. F. Hunter; secretary, Harold Pinkney; assistant secretary, Miss V. Keith; treasurer, T. ment, Mrs. J. W. Gresham; registrar, Page Baker; marshal, Jean Schnurr; Miss Maude Paden.

Penny Wise

A penny saved is not always a penny earned. Sometimes it is two pennies lost. The merchant who spends nothing on advertising is practising false economy; his losses in sales far exceed the pennies saved.

The money spent for plate glass windows is not looked on as lost; nor is the money spent on better interior lighting.

Anything that increases favor, that adds to sales, that multiplies customers is very properly regarded as a good investment.

Advertising is a good investment—just as plate glass windows are. Advertising is the plate glass window the merchant can send into every home. Advertising sells more goods to more persons than shop windows do.

A WORD TO THE PUBLIC

Do you resent having a merchant address his message to you in the form of an advertisement in our columns? On the contrary is not your impulse to respond to his friendly overtures?

Advertisements are Store Windows

The West and Its Natural Resources

The question of the transfer of the public lands and natural resources in the West by the Dominion to the three prairie provinces is once again very much to the fore. Ever since the provinces of Alberta and Saskatchewan were formed; in fact, to some extent ever since Manitoba was created a province, there has been a demand on the part of the Western Provinces that they should be placed in a position of equality with the older provinces in the matter of ownership and control of the public domain.

Fortunately, the question has now passed out of the realm of partisan controversy, because all political parties, Liberal, Conservative, Progressive, at Ottawa as well as in the Prairie Capitals, are agreed that the transfer should be made. Not only so, but the Governments of the Eastern Provinces have waived the objections so long urged, by them. It is now only a question of reaching terms acceptable to the West on the one hand, and the rest of the Dominion on the other hand.

Negotiations are now under way with all three prairie provinces. In the case of Manitoba, agreement has been reached with the Dominion to the extent that a Commission is now engaged in studying the whole question of terms. Negotiations with Alberta reached the point of an agreement being actually signed between the two Governments, but later, Ottawa proposed to insert a provision relative to school lands which was unacceptable to Alberta, and the agreement was not proceeded with. Ottawa has since modified its position and an early settlement of outstanding differences seems likely.

Saskatchewan's position is somewhat different from that of the other provinces. Whereas Alberta is rich in coal, oil, and other resources apart from lands, and natural discoveries have revealed a Flin Flon and a Sturtevant-Gordon in Manitoba, Saskatchewan's mineral wealth is yet to be proven. Furthermore, Saskatchewan's chief wealth has been found in its agricultural lands, and to a large extent these have already been disposed of by the Dominion, with the result that there is not as great wealth to be handed over by the Dominion to Saskatchewan as exists in the case of the other two provinces. Saskatchewan, therefore, has a stronger claim for compensation for lands alienated under Dominion administration for the general benefit of all Canada. However, negotiations are in progress.

The sooner all these questions are finally settled and the Western Provinces placed in control of their lands and resources the better. There cannot be complete unity among the provinces, nor full development of a national spirit and aim, so long as Western Canada feels it is forced into a position of inferiority to the Eastern Provinces. The interests of the Dominion demand the removal of any cause for such feeling. Further, whatever arguments may have been convincing in 1905 for retention of the public domain by the Dominion on the ground that they could administer them better than could the newly created provinces with all the manifold tasks before them, and with small populations and financial resources, those arguments are removed now that there are over two million people in the three prairie provinces with fully developed governmental institutions and strong financial credit.

Constitutional issues, it is true, are involved in any consideration of the matter. The West does not, and cannot, accept the interpretation placed upon certain enactments by the Dominion and the Eastern provinces, notwithstanding that Eastern opinion is greatly modified to what it was a few years ago. It would, however, be a mistake for the negotiating parties to take up positions based solely upon constitutional grounds. To do so would mean long and expensive litigation right through to the Privy Council, in England. Then, when the legal and constitutional issues were finally settled, an army of expert accountants would have to be engaged for years to delve into all the many transactions involving lands and resources since the passage of the first Dominion Lands Act in 1872.

The same, sensible, business-like thing to do now is for the representatives of the Dominion and the Provinces to gather around a table and reach an amicable agreement, fair, reasonable and acceptable to all. The sooner this big issue is settled the better for Canadian national unity and strength, and the quicker will the resources themselves be developed for use of the people and add to the growth, development and wealth of all Canada. So long as they remain in the present unsettled state neither Dominion nor Provincial Governments can proceed with proper and energetic developmental policies, and, as a result, progress is retarded.

Will Introduce Flag Bill

Resolution Dealing With Canadian Symbol Will Be Considered

The adoption of a Canadian flag will come before parliament during the present session through a resolution placed on the order paper by C. R. McIntosh, Liberal member for North Battleford.

The resolution of Mr. McIntosh calls for the appointment of a special committee "for the purpose of considering the advisability of adopting a Canadian flag representing Canada as a whole which shall form part of the British flag as the symbol of the Dominion as an equality partner in the commonwealth of British nations."

Keeping High Ideals

Rule Of Famous Artist Is Good One To Follow

A famous artist strictly resolved not to look at silly or funny pictures, simply because, when he himself wished to paint all these funny pictures crossed his thoughts, and consequently they were interwoven in his work. Hence he made it a rule to look only at great masterpieces. By doing this he ever kept his mind full of great conceptions, and thus he found it much easier to paint great pictures himself. If people would only make it a rule to observe only that which is great and good, they would find it much easier to live a great and pure life.

The most obstinate corns fail to resist Holloway's Corn Remover. Try it.

Breaks All Records

Breaking all records for long distance telephone communication, Prince Carl, brother of King Gustav, and his wife, the Princess Ingeborg, conversed from Stockholm, Sweden, with the Crown Prince and Princess of Belgium, who were at Bandung, Java, Dutch East Indies. The distance traversed was 8,383 miles. The conversation was carried by wire to Amsterdam from Stockholm and thence by wireless to and from Java.

Ask for nothing but what is right and submit to nothing that is wrong.

Use Minard's Liniment for the Flu.

Non-Inflammable Paper

Germans Give Successful Demonstration Of His Fireproof Invention

A paper that does not burn has been discovered. The German inventor, Mr. Franz Franck, gave a demonstration recently. He took a sheet of ordinary newspaper, crumpled it into a ball, and wrapped this highly combustible object in a sheet of his fireproof paper. This protected, he held it for a few minutes in the flame of a laboratory blast lamp hot enough to melt a glass window-pane. Not only did the fireproof wrapping survive, but the ordinary paper inside was not even scorched.

NERVOUS INDIGESTION AS A RESULT OF FLU

A Severe Sufferer Overcame This Trouble By Taking Dr. Williams' Pink Pills

No ailment of recent years has proved so treacherous as has the Flu. The disease itself is bad enough, but the after effects is where the real danger lies. The Flu leaves behind it a weakened body, impoverished blood, shattered nerves and an impaired digestive system. Too much stress cannot be laid on the importance of rebuilding the blood and strengthening the nerves during convalescence. Until the blood is built up there can be no recovery of health and strength. The one sure blood-builder is Dr. Williams' Pink Pills. Start a treatment of them today and see how soon you show signs of robust health again.

Among the many victims of the terrible Flu epidemic of 1918 was Mrs. Irving Maxwell, of Banff, Ont. Reading what this lady has to say concerning what Dr. Williams' Pink Pills did for her—"After an attack of the Flu I was left in an extremely weak state. My blood was impoverished; I was seized with indigestion and stomach trouble; my nerves were shattered and nothing my doctor gave me seemed to help me in the least. I continually grew weaker and weaker till I finally lost all control of my nervous system. My mother, who had used Dr. Williams' Pink Pills with good results for anaemia, strongly advised me to give them a trial. I did so, and after using three boxes I noticed some improvement. I persisted in the treatment and by the time I had used seven boxes I was fully restored to health again, and although I am a mother of six children I am now able to do all my work around the house and feel as well as ever I did in my life before. What these Pills have done for me they will surely do for others."

Dr. Williams' Pink Pills are a tonic, not a stimulant, and are a specific for such troubles as indigestion, rheumatism, women's ailments, and the general nervous feeling that affects so many people. They are sold by all medicine dealers or you may order 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The Airplane Ambulance

Actual Demonstration To Be Given In Paris Next May

The airplane which has already proved its worth as a passenger, mail, and express carrier, is now to become an ambulance.

An international congress will assemble in Paris next May to consider air transportation of sick and injured in both military and civil life, the Commerce Department has been advised by its representatives there.

Actual demonstration of the airplane ambulance will be given at Le Bourget field, where a pseudopatient will be bundled aboard, carried to some provincial village and returned.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Friction between two surfaces depends upon the pressure applied and not on the amount of surface contact. Theoretically, a large bearing has no more friction than a small one at equal pressure.

No man expects a great deal from marriage. He is quite satisfied if his wife is a good cook, a good valet, an attentive nurse, and a patient nurse.

HEADACHE RELIEVED

QUICKLY RELIEVED BY THE ONLY VERGEBILLY quickly corrects the digestive disturbances, removes the intestinal poisons, and sick headache quickly disappears. Your digestive system enjoys a tonic effect, constipation vanishes, and you feel a renewed vigor. Avoid bromides and dope. They are depressing and harmful. All Druggists 25c and 75c per bottle. CARTER'S HEAD PILLS

To Develop Home Art Industries

Canadian Handicrafts Guild To Hold Exhibition In Regina

The Canadian Handicrafts Guild, whose object is to encourage, revive and develop home art industries throughout Canada, will hold an exhibition in the Saskatchewan Hotel, Regina, March 30 to April 1, 1920. The exhibit will be open to anyone free of entry fee or charge who is skilled in making hand work, weaving, wood work, embroidery, knitting, lace, leather work, metal work, pottery, quilts, quilts, sewing, sewing, wood work, etc. Everything, however, must be handmade.

The object of the Guild is to preserve the knowledge and skill possessed by our people and to encourage industry and thrift in the home of the public, making their work profitable and honourable by means of exhibiting the products of their skill and to keep records in order to prevent the extinction of any art or craft. The Guild will undertake to sell any exhibits that are sent in but every person should, of course, put his or her price on the article.

One feature of the exhibit will be to educate the public to the value of good handwork, so that a demand may be created for these handicrafts thereby enabling our people to find their interesting and artistic work.

This is the first exhibition that has been held in Saskatchewan but in other provinces successful exhibitions have been held in which the sales have gone as high as \$50,000. The Guild is interested in any way should communicate with the Secretary, Canadian Handicrafts Guild, 1001 Broadway, Regina, and any information will be cheerfully furnished. The Guild is not a profit-making institution, there are no entrance fees, but is out to help others help themselves. No time should be lost, therefore, and writing at once to the secretary for information. The Folk Song and Folk Dance Festival at Regina, will be held at the same time and a most interesting four days is expected.

The First Fort Kamloops

City Of Today Stands On Site Of Old Trading Post

When history is in the making on the wooded slopes of Queenston Heights in 1812, another chapter in Canada's story was being written thousands of miles westward, when Alexander Ross, near the junction of the north and south branches of the Thompson River, traded for ten days with 2,000 Indians gathered at Camloops. A few months later in the fall of the year, David Stuart built the first Fort Kamloops for the Hudson's Bay Company. Trade was carried on for many years. Today the city of Kamloops stands on the site of the old trading post, and only a moulding door post, and a cellar overgrown with weeds mark the spot where the Hudson's Bay traders stood in the van of the fast-marching white civilization.

PARENTS HAPPY WHEN BABY SLEEPS SOUNDLY

Here's a way to soothe crying, wailing babies to sleep quickly and easily. It's the way doctors endorse, and millions of mothers have proved is safe and harmless. A few drops of purely vegetable, pleasant-tasting Fletcher's Castoria, has the most refreshing result on the child's sleep in a few minutes! And for colic, constipation, colds and upset spells, there's nothing like Castoria. The mark of genuine Castoria is the signature of J. C. Fletcher, M.D., the mark of genuine Castoria. Avoid imitations and be safe.

Elevator Merger Announced

The Fort William "Times-Journal" announces the consummation of a merger under which the Western Grain Company, Limited, has been formed to take over the assets and undertakings of six grain and elevator concerns that have been in operation for periods ranging from 19 to 27 years. The companies include the Western Elevator Company, State Elevator Company, Central Grain Company, Spencer Grain Company, Beaver Grain Company and the Western Terminal Elevator Company.

Contract For Sugar Beets

The Lethbridge Northern Irrigation District will contract for 2,000 acres of sugar beets this spring, according to announcement made at the annual meeting of the Southern Alberta Beet Growers' Association.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Expeller to give relief. Its effects are sure and lasting.

Whatever He Thought

This isn't a new one, but it is worth re-telling. A little girl ran into her home one afternoon and said to her maiden aunt, a Christian Scientist: "Auntie, you know that old man on the corner who was ill?" "You mean he thought he was ill?" corrected the aunt.

"Well, now he thinks he's dead," said the little girl.

Minard's Liniment for the Grippe and Flu.

CHILDREN'S COLDS

are doubly dangerous after Flu

Physicians advise that the chief danger in this epidemic is AFTER influenza. Then, more than ever, colds attacking a child's weakened system may lead to bronchitis, pneumonia, sinus trouble, abscess of the ear, mastoiditis, or even the dread meningitis.

Check Colds Without "Dosing"

A peculiar feature of influenza is that its toxins leave the digestive system upset. Too much "dosing" further disturbs the digestion and lessens the appetite, just when the child needs nourishment more than ever. Internal medication should therefore be avoided, except on the advice of a physician.

As Vicks VapoRub is applied externally, it can be used freely at the first sign of a cold with no fear of upsetting even the most delicate stomach. Just rub it on the throat and chest at bedtime.

Vicks Acts 2 Ways at Once

(1) Its medicated vapors, released by the body-warmth, are inhaled directly to the inflamed air passages, loosening the phlegm and easing the difficult breathing.

(2) At the same time, Vicks acts through the skin like a poultice, "drawing out" tightness and soreness, and thus helping the vapors to break up the congestion.

Of course, Vicks 2-way action is just as effective for adults' cold troubles as it is for those of children.

VICKS VAPORUB

For Colds of All the Family

Ex-Kaiser Was Angry

Letter In Reference To Naming Luners Gave Directors Good Laugh

Ex-Kaiser Wilhelm II. it seems, when he heard that two great transatlantic liners now being built at Bremen in Germany, were not to be named, respectively, Frederick the Great and Wilhelm the Great, after two of his most renowned Hohenzollern ancestors, wrote an angry protest to the directors of the company for which they are being built.

In this letter he scolded them in terms which must have made them turn their eyes and wonder for a moment whether Germany was now a republic. Wilhelm, an exile in Holland, and their action anything except a fragment case of lese-majeste. Wilhelm, to be sure—according to report—repented of his letter soon after it was written and tried to get it back before the directors read it, but he was too late. It was opened and read and raised many a good laugh among those in Bremen who are closer to what has happened since 1918 than the square of Doorn.

First Bird—Don't you know better than to sit on this chimney? You're getting all dirty.

Second Bird—Scots me all right.

It is the cause and not the death that makes the martyr.

Querer Sign Of Mourning It was the custom among Romans to shave off the beard at the age of twenty-one and present it as an offering to their household gods. A beard was grown after that age only as a sign of mourning.

Short of Breath Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes:—"For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk even a short distance, because of the choking sensation which followed."

After trying many treatments, I vainly, I at last decided to try

MILBURN'S HEART NERVE PILLS and in a surprisingly short time they did me much good. Price 50c per box at all druggists or dealers or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Of a sane man there is only one safe definition: he is a man who can have tragedy in his heart and comedy in his head.

For Colds -

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

The First Dose Relieves the Cough

And there are 40 doses in it. A little bottle of BUCKLEY'S Mixture is in every kind of Cough, Croup, Whooping Cough, Bronchitis, and ALL the ailments of the throat and lungs. It is the only cough medicine that is so effective. It is the only cough medicine that is so safe. It is the only cough medicine that is so pleasant. It is the only cough medicine that is so reliable. It is the only cough medicine that is so effective. It is the only cough medicine that is so safe. It is the only cough medicine that is so pleasant. It is the only cough medicine that is so reliable.

75c. and 40c.

W. N. U. 1773

ANGLO-AMERICAN FRIENDSHIP TO BE SAFEGUARDED

London, Eng.—It was learned in well-informed circles that proposals for a new approach to settlement of the disarmament problem may be made by the British government to the United States in the near future.

There were definite indications of a feeling in British government circles that an entire new system of approaching the disarmament question was needed. It was understood that this attitude would be applied to all argument problems that are not already regulated by treaties.

It was stated that a new method of solution would be sought in an effort to safeguard Anglo-American friendship and allay suspicion and misunderstanding in both the United States and Britain.

Past attempts to arrive with mathematical precision as to the cost of naval strength matching ship, and ton for ton, is now viewed by an increasing number of British officials as having been the chief obstacle to an armament agreement between Britain and the United States. They have been able to see little indication of the possibility of agreement on an equality basis. Therefore they are now considering what other method can be used for the solution of the problem and they seek especially one which would be based largely on mutual confidence and goodwill.

The influential Britons who have been trying to shape this government's United States policy so that it would tend toward confidence in all difficulties, have been staying away from any action that might involve disputes on technical questions. They have feared that such questions would arouse public misunderstanding on both sides of the Atlantic.

This attitude applies, for instance, to the United States Senate resolution proposing a conference on maritime law. The gulf separating the traditional British and United States views on this subject is wide. In some high quarters it is believed that such a conference would be unable to reach an agreement. Therefore they have considered that it would be undesirable, because it might arouse further international misunderstandings.

Amend Post Office Act

Bill Has Been Given First Reading In House Of Commons

Ottawa, Ont.—A bill amending the post office act was given first reading in the House of Commons. The measure concerns the ownership of newspapers. It provides that a sworn statement must be furnished to the post office semi-annually giving the names and addresses of editors, owners and stockholders and other particulars. Religious publications are not affected and the names of small stockholders may be omitted in all returns, according to a clause in the bill. It is proposed that failure to comply with these provisions may incur a penalty of denying admission of dilaatory newspapers to the mails. A further clause provides that paid reading matter must be marked as advertisements. Neglect to comply with this provision under the bill would incur a fine of not less than fifty dollars and not more than five hundred dollars on conviction. The measure was introduced by T. L. Church, Conservative, Toronto northwest.

Dispute Was Settled

Canadian Workers Re-Instated In Old Positions In Toronto

Ottawa.—In the House of Commons H. B. Adams, Labor, East Calgary, asked the Minister of Labor whether he had any information to give the Canadian workers as to German immigrants brought into this country to replace Canadian workers in Toronto.

Hon. Peter Heenan replied that he was now able to inform the House that a settlement had been reached whereby the Canadian workers were re-instated in their old positions at the same wages which they received prior to the dispute.

Forestry Association Officers

Ottawa.—Brigadier-General W. B. White, Montreal, was elected president of the Canadian Forestry Association, at the convention here. Directors include Charles Hayden, Calgary; T. S. Dixon, J. D. Robson, and P. A. Wilson, all of Vancouver.

To Prevent Grain Mixing

Changes In Wheat Marketing To Be Demanded By Western Members

Ottawa.—Drastic changes in the methods of marketing wheat are being demanded by the members from the prairie provinces and those demands will find their echo in the House this session from both Liberal and Progressive members.

When Robert Gardiner, Progressive leader, in the House the other evening demanded the resignation of the present board of grain commissioners and the establishment of a new board of five to administer the Canada Grain Act, he expressed the views of many in the prairie provinces. Yet the Liberals are asking for more.

Before the present session is far advanced there will be a demand for some means to prevent mixing at the terminal elevators, for changes in the personnel of the board of grain commissioners and for action in the direction indicated in the report of the agriculture committee last session regarding the establishment of protein content as the chief measure of the market value of wheat.

Large Butter Consumers

Canadians Use More Butter Than Any Other Nation

Vancouver, B.C.—Canadians are the largest consumers of butter in the world, declared Dr. J. D. Riddick, Director of the Board of Agriculture, in addressing the Western Canada Dairy Convention here on "Dairy Progress in 1928." Their annual per capita consumption, he put down at 27 pounds to which must be added 2½ pounds for the increased home consumption, according to Dr. Riddick, had led to a large drop in butter exports and in this connection he referred to the huge consumption of dairy products by the automobile tourists who annually invaded Canada, this trade alone now accounting for between 12,000,000 and 15,000,000 pounds of butter every year.

Pay Well For Extra Work

Delegates To Reparations Conference Lavish With Tips

Paris.—Delegations to the reparations conference have made the employees about the Hotel George V, where its sessions are held, happy.

The conference has entailed considerable extra work for the hotel employees and the delegates have not been slow to repay it with tips.

Particularly have the telephone switchboard personnel benefited. There is just one grumbler, Luke the barman, who says the delegates are the poorest customers he ever had and that he has yet to serve either delegate or substitute at his bar.

"It would seem," he says, "that no fourteen delegates are from prohibition countries."

The motive behind Mr. Gardiner's demand are well appreciated here. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan is potentially one of the richest mineralized areas in Canada. About one-third of the famous pre-Cambrian shield lies in this northern territory, and extensive prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chester Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years tremendous mining development may take place in this northland.

The motives behind Mr. Gardiner's demand are well appreciated here. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan is potentially one of the richest mineralized areas in Canada. About one-third of the famous pre-Cambrian shield lies in this northern territory, and extensive prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chester Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years tremendous mining development may take place in this northland.

Rapid Comeback For Britain Predicted

Sir Alfred Cope Sees End Of Period Of Depression

Montreal.—That Great Britain was rapidly coming to the end of the period of depression and that she would come back to the foremost position by once held was predicted by Sir Alfred Cope, under-secretary of state for Ireland from 1919 to 1922. He is at present managing director of the Amalgamated Collieries of South Wales and is here in the interest of marketing Welsh coal in Canada. He said the coal industry had introduced economies long overdue.

Next Convention In West

Canadian Swine Breeders' Association Will Likely Meet In Regina

Quebec.—A resolution asking the provincial governments to conduct further researches in an effort to control the ravages created in swine by the parasites in the swine herd was adopted by the Canadian Swine Breeders' Association at its annual meeting here. More than one hundred swine breeders from all over the Dominion were in attendance. The next meeting of the association will take place in Western Canada, probably at Regina.

Had Narrow Escape

Alfreton, Derbyshire, Eng.—Passengers on the night express from London to Glasgow had a narrow escape when the locomotive and baggage coaches were derailed but the coaches kept to the rails. No passengers were injured but the express messenger and five passengers were killed and believed to be under the derailed locomotive.

Trapped In Burning Cabin

Neighbor Unable To Effect Rescue Of Three Prospectors

Stouffville, Ont.—Trapped by flames in their tiny cabin, three prospectors lost their lives at the narrow Woman Lake Portage, according to word reaching here. With them perished their four dogs which were chained to the outside of the building.

The three victims were Tony Tyrell, and men named Gougan and Viogt.

No word is yet available as to where the three came from. Terrified barkers of the dogs roused R. F. Dynes, sleeping in a shack some distance. He rushed outside to see the cabin in flames but found it impossible to effect a rescue. He could not even get near enough to release the still living dogs.

Word of the tragedy was brought out by aeroplane.

WILL MAKE BID FOR LARGE AREA IN FAR NORTH

Ottawa.—While cabinet ministers and western members of Parliament will not discuss, openly, the announcement that Premier J. G. Gardiner, of Saskatchewan, will seek a vast extension of the area of that province when he comes here to confer with the Dominion Government, there is the keenest interest in his proposition.

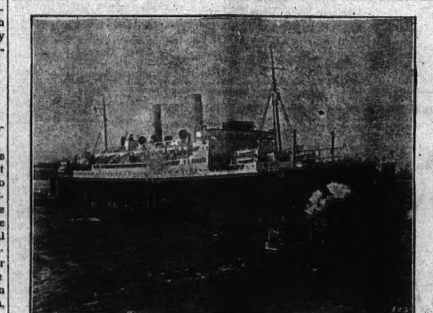

The reaction on the whole, is most unfavorable and "no" appears ready even to consider the possibility of granting to Saskatchewan the territory immediately to the north of Manitoba.

This attitude of course is more marked among Manitoba members than others, but the general view of eastern members and ministers is that to grant Mr. Gardiner's request would precipitate a quarrel between the provinces which would have far-reaching results and might, conceivably, become an outstanding national issue.

Some members believe that no change in the present boundaries should be made until the northern areas are populated and that there should then be created new provinces to the north of the present prairie provinces. However, the majority of members agree that this ought not to be done, but that, when the time comes, the present provisions should be extended northward.

The motive behind Mr. Gardiner's demand are well appreciated here. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan is potentially one of the richest mineralized areas in Canada. About one-third of the famous pre-Cambrian shield lies in this northern territory, and extensive prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chester Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years tremendous mining development may take place in this northland.

A CRUISE OF CONTRASTS

With tiny tug boats in their efforts to nose the twenty thousand ton Canadian Pacific liner "Duchess of Atholl" into the straits, 350 passengers left New York recently on a "Cruise of Contrasts" that will take them to twenty ports in the West Indies, South America, Africa, Egypt, Italy, Monaco and France.

This is the second South America-Africa cruise by a Canadian Pacific ship. Last year it was undertaken by the "Empress of France," the first ship to land goods at the lonely island of Tristan da Cunha successfully. The visit to this isolated spot on one of the most romantic episodes in the lives of the cruisers, and when they return to Canada they will have the distinction of being among the seven hundred non-suffering people ever to have that opportunity.

PASSES EXAMINATION

C. B. Kay, the first Canadian student to pass the final examination of the chartered institute of secretaries, London, England.

Consider Tunnel Idea Nothing But Gamble

Should Not Be Started Without Investigation, Is Opinion Of Expert Engineer

London, Eng.—The project for the construction of a tunnel under the English Channel is a gamble.

This is the considered opinion of John Dalrymple-Hays, one of the world's authorities on tunnel engineering, who, in an interview with International News Service, declared the construction of the tunnel should not be decided upon in the first flush of enthusiasm.

Dalrymple-Hays's word must be received with deference. He is an engineer with unrivalled experience in this sort of work. He acts as consulting engineer for the company controlling London's subway, and has had the design and supervision of 600 miles of underground tunnels in London.

"The channel tunnel project is a gamble purely and simply because there is no authority who can say with certainty what may be the thickness of the strata in the middle of the English Channel."

"Again the whole thing is a gamble because it is being done blindfold. As a practical engineer, I say that there is not a particle of real evidence to show the thickness of the strata under the sea. Geologists say they have taken fossils and samples from the sea bed, but to an engineer that is just moonshine. They know nothing of the depth of the chalk."

Will Make No Change

Thanksgiving Day and Armistice Day To Be Celebrated As Two Distinct Festivities

Ottawa.—Thanksgiving Day and Armistice Day will continue to be celebrated in Canada as two distinct features of national life, the one in acknowledgement for the bounties of Providence, and the other in homage to the memory of Canada's sons and daughters who gave their lives in the great war. This was affirmed when the House of Commons rejected a resolution introduced by F. W. Genshaw (Liberal-Progressive, Medicine Hat), the purpose of which was to combine both Thanksgiving and Armistice Days into one holiday, on November 11, annually.

May Require Aid Of British Parliament

To Smooth Out Difficulties In Connection With Manitoba Act

Ottawa.—The possible necessity of involving the legislative machinery of the British Parliament to smooth out certain difficulties of certain lands in Manitoba, was raised by R. W. Craig, counsel for the province, at a session of the Manitoba natural resource hearing.

Mr. Craig, during the course of his argument, pointed out that the British Parliament had passed the Manitoba Act of 1870 and provision had been made whereby it could not be changed by the Dominion parliament.

It might be necessary, in order to change the present financial terms between the provinces and the Dominion, to have the British Parliament validate such change by statute, Mr. Craig declared.

Historical authorities were quoted and precedence cited by Mr. Craig in support of his contention that the Dominion's interest in the province's jurisdiction and did not involve proprietary rights.

Stricter Penalty For Violating Drug Act

Amendments Under Consideration To Curb Traffic In Narcotics

Ottawa.—The House of Commons considered in committee of the whole a bill to amend and consolidate the opium and narcotic drug act. The measure provides increased penalties in cases of conviction for selling, giving away, or distributing drugs without a license from the minister of national health. Under the clause inserted a judge may at his discretion, sentence a convicted person to be whipped, in addition to the imposition of fine and imprisonment. A further change provides that persons guilty of infractions of the act shall be liable to payment of costs of prosecution. Other amendments incorporated, a number of which are for purposes of clarity.

INTENSE COLD IN EUROPE CAUSES GREAT SUFFERING

London, Eng.—The almost unprecedented degree of cold weather has taken a great toll of life in Europe in the last week, and despatches from almost every country between the North Sea and the Bosphorus brought reports of most critical situations.

Deaths due directly and indirectly to the cold weather have gone well over 10,000 since Monday, and there appeared to be no weakening of the grasp of the most severe winter in the memory of living men.

At London, the French sentry on duty with the army of occupation in Germany, was frozen to death. Forty other sentries collapsed due to cold and as many as possible were withdrawn from duty. The temperature was 11 below zero at Wiesbaden.

Advices received by Central Radio at Vienna said 10,000 persons had ascertained one point in Budapest to receive coal rations from the Hungarian government.

Several deaths due to cold were reported from Budapest, including a night watchman and his wife, who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the United Press correspondent reported.

England was swept by severe snowstorms and communications were disrupted. The influenza epidemic, combined with cold and cold weather accidents, has caused most of the deaths which have reached a total of well more than 10,000 during the winter, according to reliable statistics from 11 capitals.

The statistics include: France—2,500 deaths due to influenza and similar diseases.

England and Wales—2,100 deaths due to influenza, cold, shipwrecks, influenza and cold.

Germany—1,400 deaths due to influenza in larger German cities.

Czechoslovakia—Influenza epidemic increased death rate in last two months by 55 per cent in rural areas.

Italy—Scores of deaths attributed to cold, and estimated increase of four per cent in death rate.

Holland—200 deaths from influenza.

Austria—150 deaths in Austria due to cold and influenza.

DECIDE AGAINST ANY RETURN TO TITLES IN CANADA

Ottawa.—There will be no return to titles in Canada. By a vote of 114 to 60 the House of Commons defeated a resolution moved by C. H. Cahane, Conservative member for St. Lawrence-St. George, which raised once more the vexed question of the granting of titles in Canada.

The vote cut across party lines. It showed the Prime Minister and Hon. R. B. Bennett, Conservative leader, uniting in support of the motion. It divided the cabinet, the majority of its members present opposing the resolution. It divided the Liberal and Conservative parties, the majority of liberal members present opposing the resolution, while the majority of Conservatives found themselves in support of Mr. Cahane's proposal.

Only in the smaller groups of the house was there unanimity of opinion. Progressives, members of the U.F.A., Independents, and Labor members all united in opposition to the resolution.

Mr. Cahane's resolution did not advocate the return of titles to Canada. It asked merely for the appointment of a special committee of the commons, consisting of 11 members, to "investigate a report upon the advisability of granting, according to the resolution, the address to His Majesty the King, which was adopted by this house in May 1919, dealing with the conferring by His Majesty of titles of honor or titular distinctions upon His Majesty's subjects domiciled in ordinarily resident in Canada."

It also asked that the committee consider and report upon the acceptance or use by persons in Canada of titular distinctions conferred by foreign governments.

The debate, however, indicated that many members felt that acceptance of the resolution might prove to be the thin edge of the wedge which would open the way for a return of titles to Canada. The discussion was featured by a statement from Hon. Charles Dunning, minister of railways and canals, that not one member of the government favored the restoration of titles in Canada.

Mr. Cahane, himself, who closed the debate, pointed out that his resolution contained not a word about the restoration of titular distinctions. Personally, he did not advocate the revival of titular distinctions in Canada, but he felt that His Majesty should be in a position to reward merit with some simple recognition on the advice of the government of the day.

A number of members who participated in the discussion, voiced strong opposition to the conferring of titles. William S. Irvine (U.P.A., Wetaskiwin), expressed the view that a really big man did not require a title, and a man who was not big could not be helped much by tagging one on.

Reparations Payment

Amount Of \$2,500,000 To Settle Claims To Canadian Citizens

Ottawa.—Shortly before adjournment of the House of Commons, Hon. Fernand Rinfret, secretary of state, moved the adoption of a resolution for the payment of reparation claims to Canadian citizens up to a total amount of \$2,500,000. Debate was adjourned.

Strong opposition was voiced by Hon. H. H. Stevens (Conservative, Vancouver, Centre) against the amount, which the government proposed to pay. Mr. Stevens believed that with the exception possibly of a certain class of claims all amounts approved by the reparations commission should be paid in full.

Planning Market Branch

Vancouver.—Official announcement that the provincial government intended to shortly establish a market branch was made by Premier S. F. Tolmie, at the banquet here of the Western Canada Dairy Council Convention.

Honor List Expected

London, Eng.—It is expected the King's honors list, postponed from New Year's Day on account of His Majesty's illness, will be published before the end of the present month. It is understood it will be very short and will not confer any peerages.

Heads League Society

Ottawa.—Dr. H. M. Tory, president of the National Research Council of Canada, was elected president of the League of Nations Society at the seventh annual meeting held recently.

The Plant and Business of the Blairmore Vulcanizing and Battery Station TO BE SOLD

The undersigned having taken an option on a certain merchandising business in South Alberta, expiring April 1st next, we are now offering our above Plant and Business for sale upon reasonable terms to a reliable purchaser, giving possession any time up to April 1st.

We have the nicest paying business in The Pass country, investments considered. Our books are open to any bona fide intending buyers for inspection. The past 1928 year was the best we have had for profits in the past eight years and this proposition is worth while investigating by anyone wanting a business of this kind.

For further information, apply to
W. M. BUSH, Proprietor, Blairmore

Local and General Items

WARNING

Consumers of water are requested to boil water used for drinking purposes. River water is now being pumped into the mains

Large crowds attend the Moose dances each Saturday night and report good times.

Stanley Park is now behind the counter of a grocery store at Ladner, B.C. Used to be in Vancouver.

A Scotchman phoned the local lodge a few nights ago for a couple of Free Masons to build him a garage.

Miss Julia Dutil, who is a nurse-in-training at the Holy Cross hospital, Calgary, spent this week at her home here.

The Holy Family Catholic church at Fernie will begin the erection this spring of a new convent school. The old one will be removed.

The stork visited the home of Mr. and Mrs. Harper last week, leaving them a young son. "Dick" hopes to be around in a few days.

Too bad the members of the Medicine Hat and Nanton hockey teams could not be in Blairmore tomorrow night to take a few pointers on hockey.

Jack Smith and Jack McDonald both died in Nova Scotia recently. Norman McLeod and Sandy Morrison are still living, and so is Duncan McIsaac.

Someone told us this morning that an added attraction at the Orpheum on Saturday night would be Count Rinaldi in "Me and My New Chapeau."

The installation of officers of Union Jack Orange Lodge in Newfoundland took place recently. The positions of W.M., D.M., R.S., F.S., Treasurer, D. of C., Lecturer, Tyler and three committeemen were filled by men named Sheppard.

Capt. C. David Jenkin, official court reporter in Lethbridge since 1920 and in the Macleod district prior to that time, and very well known in The Pass district, died in Galt hospital at Lethbridge on Thursday last, aged forty-six years. He was formerly a member of the R.W.M.M. P. In the late war he served as machine gun officer with the 89th Battalion of Calgary, under Lieut.-Col. Nasmyth. In the course of his overseas service, he was gassed and badly wounded, but skilful surgery enabled him to resume his civilian activities, though he was latterly a constant sufferer. He leaves a widow and one son, at present at Victoria, B.C.

During the severe cold spell last week, Mayor Thompson, of Coquar Valley, had his clay pipe frozen.

The wild ass is hunted in some countries, but in Canada they don't even take away his license to drive.

Miss Kathleen McVey, who recently underwent a critical operation at the local hospital, is now able to be around.

The remains of the late Dave Jenkin, who died in Galt hospital, Lethbridge, were taken to Victoria, B.C., for burial.

Kimberley intermediates have been declared champions of British Columbia, east Kootenay division, securing the Zenith cup.

There hasn't been a drunken child or woman on the streets of Blairmore since the sale of rum and butter candies was banned.

We doubt very much that a good turn is being done for hockey by having part of it played in the courts. It's bad enough to finish a game in a restaurant.

We understand that the singers of the Hillcrest Welsh Concert Party will appear at the United church here on the night of Sunday, March the 3rd. Bear this date in mind and don't fail to hear this talented organization. Later on, the concert rendered recently by them in Hillcrest, will be repeated in Blairmore.

A while ago a baby was born at Michel, B.C., that weighed only one pound eight ounces, believed to have been the world's smallest baby. Now a report comes from Stellarton, Nova Scotia, where Mollie Murray, daughter of Mr. and Mrs. Arthur Murray, who is now six years old, weighed only one pound five ounces when born. Next!

No doubt, there will be less drunkenness in Alberta now, since the farmer government has stopped the sale of rum-and-butter candy. Why not also stop the sale of molasses in any form, for molasses in its purity contains more alcohol in a teaspoonful than could be obtained from a bottle of candy? Year by year legislation become sillier.

By games, the Blairmore and Coleman Tuxis teams are a tie. The game of Friday night last was very well contested, Coleman winning by a two-to-one score. The game was refereed by Brennan, of Coleman. The Coleman aggregation, while lacking in weight, displayed excellent play, particularly in combination. Jimmy Patterson starred for Blairmore.

The masquerade dance in the I.O. O.F. hall, Bellevue, on Friday was a grand success financially and otherwise. There was a good crowd present and the costumes were many and varied, the judges having difficulty in deciding the winners. The prizes were carried off by Miss Enid Cole, best dressed lady, as a Gipsy; Mrs. Fred Beal, most original, as Auntie; Fred Padgett, best comic, as Nigger Wench. Fred took the part good. The gents' prizes were won by Mr. Leonard Shearrett, best dressed, as a Gipsy; Mr. C. Johnston, most original, as a Spearmin Gum Man, and Miss Ruby Cousens, best comic, as a Hag, Bone and Bottle Man. The judges were Mrs. Monro, Messrs. F. J. Turner and G. K. Slett.
